

Inpatient Mental Health Services

Decreasing use of inpatient services, through reducing both overall admission and readmissions within 30 days, is a primary goal of the Allegheny HealthChoices program. By decreasing use of inpatient services, more resources are available for community-based services, and people receive services in less restrictive settings.

	2009-Q3	% Change From Previous QTR
Number of Adults With at Least One Admission	1,157	10%
